Why do Frankenstein create the monster? Frankenstein believes he can discover the secrets of "life and death", to create a "new species" and learn to "renew life." He wants to get something great, even if at a high price. He gives several reports on the origin of his ambition, reflecting the ambivalent attitude of him towards him. Sometimes he sees him as a defect of character, comparing his ambition of him to that of Satan, "the archangel who aspired to omnipotence". Often, however, he suggests having the moral duty to follow his ambition: "I considered criminal to throw away in useless pain those talents that could be useful to my fellow men." Some readers suggested that Frankenstein is desperately looking for "Renew life "Because it is still in mourning for her mother. He dies just before he starts studying sciences. After the creation of the monster, Frankenstein dreams that Elizabeth turns into the corpse of her mother, who could be seen as the subconscious of Frankenstein who recognizes that she has not been able to create life in a way that she could bring her mother back to life. Why does the monster want revenge? The monster hates Frankenstein for abandoning him after his creation: "He had abandoned me and, in the bitterness of my heart, I cursed her." Species: "I was not dependent on anyone and learned with anyone." For the whole human race. He believes that humans have unjustly treated him because of the appearance of him. He is particularly injured by the horrified reaction of the Delacey family, his "protectors", when he reveals himself to Mr. Delacey. The monster only looks for revenge against Frankenstein, but sometimes it seems to see Frankenstein as the representative of all humanity. He turns to him by calling him "man!" When he announces that Frankenstein's family killed, suggesting that Frankenstein is a stunt double. id enif la ortsom li rep ongampoc nu eraerc iul rep atsioqe obheras ehc edulcnoc ilgE. Why is Frankenstein running away from his monster? Immediately after after after The monster to life, Frankenstein feels overwhelmed by the ugliness of the monster, then tries to find relief by going to sleep in the next room, where his sleep is tormented by nightmares. When he wakes up finding the monster standing above him, smiling, Frankenstein rushes from the room, terrified, ashamed and repentant of having created the monster. Frankenstein reflects: "mixed with that horror, I felt the bitterness of the disappointment; The dreams, which had been my food and my rest pleasant for so long, became hell for me; And the change was so rapid, the reversal so complete!" "Because the monster kills Guglielmo? At the beginning, the monster wants to make friends with William, a child that the monster calls "beautiful". However, when William shouts with horror at the sight of the monster and then involuntarily reveals that he is a member of the Frankenstein family, the monster is taken from anger and suffocated William to death. William's murder was born from the culmination of the monster's anger against Frankenstein for abandoning him and hatred towards humanity from not having accepted it. How does Frankenstein understand that the monster killed William? After receiving a shocking letter from the father who announced to him the assassination of William, Frankenstein returns home to Geneva. When he arrives, he is night, and the gates of Geneva are closed, so he decides to explore the woods where William was killed. While Frankenstein walks in the woods near the place where William's body was found, he sees the monster who hides in the background, and realizes that the monster is the most likely guilty. Why does Frankenstein remain silent during the Justine process? Justine is on trial for William's murder because William's medallion with a photo of Caroline Frankenstein was found in a justine clothes pocket. Justine's knowledge, the monster planted the medallion in her pocket to fit her ...id ...id aruap ah am ,'e ol ortsom li ehc e onissassáá 'e non enitsuJ ehc escipac nietsneknarF ,oidicimoáá lA ,kcatta sÁÁÁcretsnoM eht ot elbarenluv won si htebazilE dna ,moor rieht rof gnidaeh si retsnoM eHT :ekatsim lataf a edam tsuj sah eh taht si ezilaer tÁÁÁcenseod nietsneknarF tahW ,elttab tnenimmi rieht fo thgis eht hitw reh gniyfirret divoa dna edistuo retsnoM eht thgif nac eh taht os mih tuohitw moor rieht ot eriter ol htebazilE sdnes nietsneknarF ,dnim sih ni gnitarrebrever ÁÁÁcethgin-gniddew ruoy no uoy hitw eb llahs lÁÁÁc taerht sÁÁÁcretsnoM eht hitW ,htebazilE tcecorp ot snaw nietsneknarF ?thgin gniddew rieht no enoia htebazilE eveal nietsneknarF seod yhW ,egar fo tif a ni lavreIC dellik retsnoM eht ,mih rof gnikam saw eh ,noinapmoc eht vortsed nietsneknarF gnitecs retifa dna ,!taob sÁÁÁcnietsneknarF koot retsnoM eht ,redrum eht erofeh thgin eHT ,lavreIC dellik retsnoM eht ,ytilaer nf ,sÁÁÁcnietsneknarF delctam taht retaw eht ni taob a was yohf ,hcaob eht gnola ydob sÁÁÁclavreIC dnuof yeht nehwh taht mialc sessentiweye esuaceb redrum sÁÁÁclavreIC tuoba nietsneknarF thorfnoc elpoepsnwot eHT ?lavreIC gniredrum fo nietsneknarF esucca elpoepsnwot eht od yhW ,!flesmih nupu ,os erom yibaugra ,dnaF dlrow eht nupu covah erom gnihselnu yllantnetop dna noitaerc sih yb thgir sÁÁÁcethaw gniod neewteb tcilfnoc larom a ni thguac flesmih sdnif nietsneknarF ,revewoh ,tmemom siht ni ÁÁÁc ,wotseb ot rewow ym ni saw ti taht ssenipph fo noitrop eht llaÁÁÁc mih sewo eh ,rekam sÁÁÁcretsnoM eht sa ,taht snosaer nietsneknarF ,rehruf ,namuh rehto yna sa pihsdneirf dna trofmc ekil sdeen lanoitome emas eht fo elbapac saw taht gnieb a ro ÁÁÁc ,noitasnes enif fo eruataerc a eb ot . . . devorpÁÁÁc won dah taht gnieb a gnitaerc ni rorre sih fo edutingam eht ezilaer nietsneknarF sekam elat sÁÁÁcretsnoM eHT ,noinapmoc a mih rof etaerc dna tseuqer sÁÁÁcretsnoM eht ot ni evig ot devom si nietsneknarF ,lavivirus fo elat sÁÁÁcretsnoM eht ot gninetsil retifa ?noinapmoc a retsnoM sih ekam ot eerga tsrif nietsneknarF seod yhW ,yawyna tsixe dlucoc retsnom a hcus taht eveileb lliw eno on taht dna ÁÁÁcenasniÁÁÁc delebal eb lliv in in court on her behalf for fear that ,.tmevevihca ,.tmevevihca sih fo stluser eht sterger ylurt yino dna levon eht yb detseggus sa noitibma fo sregnad eht dnatrednu etiuq ton yam eh taht gnitnih ÁÁÁc ,doeccus yam rehtona tey ,seph eseht ni detsalb neeb flesym evah lÁÁÁc ,sdda nietsneknarF ,noissim sih no eumitnoc ot notlaW egariocne ot smeecs eh emit emas eht ta dna ,retsnoM eht gnitaerc ni raf oot ecneics fo stimil eht gnihsup terger ot smeecs nietsneknarF ,yrotcidartnoc mees sdrow esehT ÁÁÁc ,seirevocsid dna ecneics ni flesyoy gnihsiugnitsid fo ono mecomni ylmerappa eht yino eb ti li neve ,noitibma diva dna ylliliuqnar ni ssenipph keejslÁÁÁc ot notlaW ,segru neve eh ,noitibma sselkoc ,dnib fo sregnad eht sdnatsrednu ylurt eh fi ro retsnoM eht gnikam sterger ylerem nietsneknarF fi raelcnu sÁÁÁceti ,revewoH ,ekatsim a saw retsnoM eht gnitaerc taht sdnatsrednu eh taht gnilaever ,retsnoM eht gniyortsed erofeb oid lliv eh taht sterger nietsneknarF ,htaed sih ot pu gnidael syad eht ni ?retsnoM eht gnitaerc ni ekatsim sih morf nrael nietsneknarF seod ,mih evsrup ton dluwon notlaW os yino flesmih llik ot gniog saw eh notlaW dlot evah yam dna revole si retsnoM eht ,revewoH ,nalp sih hitw hguorht seog oh demussa si ti ,htaed sÁÁÁcretsnoM eht fo tnuocca on edulcni ton seod yllehs dna ,sessentiw on era ereht hguohtlA ,evila ecaep dnif regmoi on nac eh ÁÁÁc ,semirc yb detulolp[ÁÁÁc si eh sleef retsnoM eht sa ÁÁÁc ,semalf gnirutrot eht fo ynoqa eht ni tluxe dna ,ytnahpmuirt elip larenuf jsih] dnecca llahsÁÁÁc eh taht gninilpxe ,flesmih llik ot snalp eh taht notlaW sliet retsnoM eht ,levon eht fo dne
